

## **BELMONT CENTER PARKING STUDY COMMITTEE**

In response to the Town building the new fire station on Leonard Street, the Selectmen appointed our committee to make recommendations for parking in and around Belmont Center. Our committee submitted its final report in January of 2004 to the Selectmen recommending a reconfiguration of the municipal parking lot between Leonard Street and Cross Street. Subsequently the Town Meeting approved funds for the reconfiguration of the parking lot and the project was completed according to the plans presented.

Respectfully submitted,  
Kevin C. Foley, Chairman
